WALL STREET NEWS

Market Is Dull, with Prices Generally Steady.

TRADE CONFINED TO LEADERS

Closing Above that of Saturday, Though at the Outset the Market Was Lower-Inactivity Due Largely to Apprehension Over Possible Decision in Tobacco Case.

New York, March 21 .- A heavy reduction in the volume of dealings was the distinguishing feature of stock exchange business to-day. Part of this was doubtless caused by the stock market hesitation that is a familiar characteristic of Monday mornings in Wall street nowadays, lest the Supreme Court should hand down a decision in the American Tobacco case. A more potent cause of market duliness was, however, general curiosity, not to say anxiety, in the financial district to be informed as to the result of the New York City \$50,000,000 4% per cent bond offering, for which bids were to be opened at 2 o'clock in

Inasmuch as up to the close of business reports of these bids were still being printed on the Wall street news tickers, there was still uncertainty as to the result of the sale when the offi- Wisconsin Central com..... 53 53 53 53 63 cial day ended. But the data afforded at this hour was such as in general to make it seem likely that the average for the bonds would be somewhere in the neighborhood of 100%. This could hardly be called a highly satisfactory upshot of the matter, and if it is the one reached it will be decidedly below the general expectation thereof, except, perhaps, in the inner banking circles. Steady Much of Day.

At the outset to-day, the stock market was a little lower, but it afterward advanced and held with great steadiness during the greater part of the day. In the afternoon, when the city bond sale bade fair not to terminate in a such favorable way as has been anticipated, there was selling of stocks but without any strong pressure in this direction, and closing prices for the active issues were still above those of Saturday. The trading was still confined largely to a few prominent stocks, and there was much comment upon the circumstances that not until the afternoon was well along were there any transactions whatever in a number of stocks by no menas to be classed as inactive.

An incident of the day that was without perceptible influence, was the publication

LOCAL FINANCIAL GOSSIP.

Announcement was made in Baltimore yesterday that \$25,469,670 in the common stock of the Western Maryland Railroad Company, now in the treasury, will be offered to the stockholders at the close of business March 30 at \$50 a share. The privilege to take it at that price adheres to both the common and preferred stockholders. The proceeds of the sale of this stock which will be about \$12,000,000, will be used in construction of the branch line from Cumberland to New Haven, Pa., India. and for other equipment expenses. West- PORKern Maryland common was quoted on the New York Stock Exchange yesterday at 51%, so that the stock has at present a slight value above the price at which it is offered for March 30.

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for Keely stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
